How we arrange a trip

01. Your requirements

Tell us the route, travel dates, number of travellers and any timing, baggage or accommodation requirements.

02. A written quotation

We present the available option with its total price, inclusions and the conditions that apply. Availability and prices may change until the supplier confirms the booking.

03. Approval and payment

Review the itinerary and traveller details before approving. Full cleared payment is required before issue. If a price changes before issue, we obtain your approval before proceeding.

04. Confirmation and documents

We confirm the booking after the supplier has accepted it and provide the relevant travel documents. Contact us for changes, cancellations or assistance with an existing booking.

Business enquiries

For company travel, send the route, dates, traveller count and your approval or billing requirements. We will confirm the arrangements we can support and any documents required before booking.
